

HEIDI THOMPSON

Colter Elementary School

We are 4th grade artists at Colter Elementary School. For this project, we researched, through conversations with our families, our ancestral R00TS. We discovered we are from many places around the world. We found what flag(s) represent our ancestors and drew and colored these flags. We then created the American flag out of corks, carefully painting each one. We also decorated the border with patterns and designs on the corks. We reused 700 corks for this project! This project represents our R00TS.

Ancestry Roots
Colter Elementary
4th grade

We are 4th grade artists at Colter Elementary school. For this project, we researched, through conversations with our families, our ancestry ROOTS. We discovered we are from many places around the world. We found what flag/s represent our ancestors and drew and colored these flags. We then created the American flag out of corks, carefully painting each one. We also decorated the border with patterns and designs on the corks. We reused 700 corks for this project! This project represents our ROOTS.
