

LAUREN BRZOSZOWSKI

Jackson Elementary School

“Our roots as artists stretch way back _____ . Inspired by natural materials and one of the oldest surviving artistic practices in the world.*”

***Some of this art is currently in quarantine at the Museum! Due to the risk of insect infestation, we cannot allow organic material inside the Museum without it going through a decontamination process inside of oxygen-free bags. This process takes about a month to ensure that any risks are eliminated. The artwork containing organic material will be on view in April. For now, you can enjoy some of the students' work that does not contain sticks as well as a photo collage on the wall.**
