

SARAH McWHORTER

**Jackson Hole Classical Academy**

**5<sup>th</sup> and 6<sup>th</sup> grade students at Jackson Hole Classical Academy studied Anton von Scheidel's botanical scientific illustrations. Students were given the option of copying all or part of one of von Scheidel's illustrations as exactly as possible, or they could choose to incorporate elements of the illustration into a fantastic drawing of their own creation.**

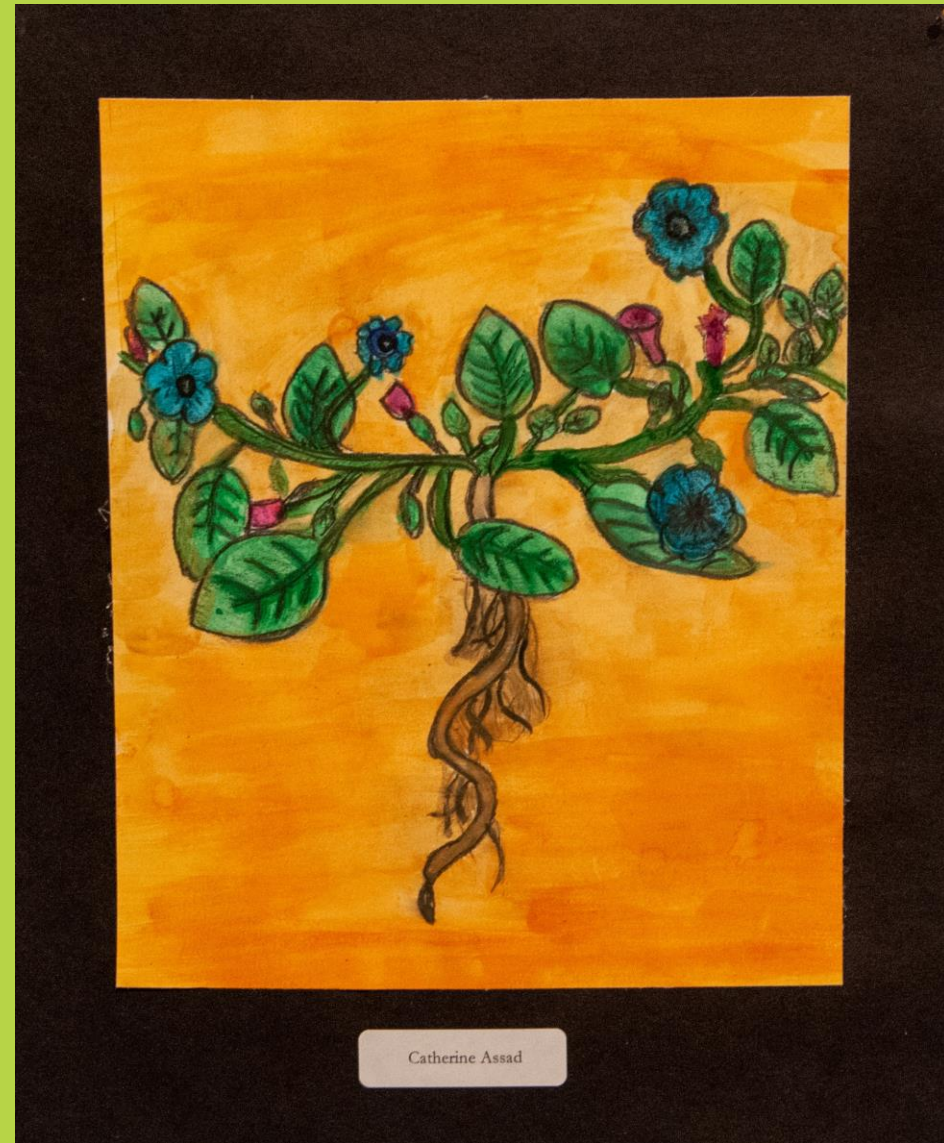

Scientific Illustrations

When and how to use scientific illustrations in your work. This is a guide to the use of scientific illustrations in your work. It is a guide to the use of scientific illustrations in your work. It is a guide to the use of scientific illustrations in your work.
